- Governance
- Be an employer of choice
- Managing risk to the organisation
- Impact and evaluation
- Environment

## OBJECTIVES 2023 - 24

"Children's centres' are an invaluable resource for support, first contact and community care."

- Build community cohesion and provide a counter narrative to community tension
- Develop existing and create new community spaces
- Reimagining the services to fit the local priorities
- Increase the community voice and diversity of community leadership within our services

- Support individuals and families to face current economic, health and social challenges
- Supporting individuals to access training, gain skills and help people get into work
- Facilitate local partnership to ensure the integration of services
- Address the education inequalities for children and young people

- Provide universal services that target delivery to the most vulnerable
- Work with partners to remove barriers and identify gaps in services and provision
- Use our role as community anchor to influence the development of local services to meet local needs
- Continue to increase awareness and discussion of health and wellbeing in communities

- Improve governance
- Develop and implement a workforce development plan
- Demonstrate the difference our interventions make
- Managing risk to the organisation
- Continue to reduce our NHP Carbon footprint and encourage community action around climate change
